Dear Sir,

I am writing this letter on behalf of myself and many others with the same views as myself, who, for naval regulations, have got to stay anonymous. I am a boy, second-class, in Her Majesty's Navy, stationed at H.M.S. GANGES, Shotley, a training school for lads wishing to make the Navy their career. I am only fifteen, and will have to suffer, and suffer is the word, the service till the age of twenty-five, ten years, with another five years to do in the reserve Fleet after that. I joined with the view of making a good thing of it, getting on, and be happy in it. All that was squashed in the first six weeks. Now I hate the service like poison and would do anything in my power to get out of it. The place is a prison; the officers are pure tyrants and the ship is better not talked about. I've always wanted to join the Navy, so as soon as I could, I did. Till the day I die I shall regret that hateful day I went to the recruiting office and signed my name to that paper enrolling me in the Royal Navy for TEN WHOLE YEARS! Someone should sue the government for false advertising, plastering all the magazines with "Make the Royal Navy your Career."

Why can't they have a trial period for lads like us, to see if we like the service. If we don't, let us out, and everyone is still happy. Oh! just one other thing - leave. Do you know that from September 6th till December 10th I won't see the outside of the place, not till I'm a boy, First-class. Well I'll tell you now, sir, if someone doesn't do something about conditions here, we, ourselves, will, and I don't think anyone would like that.

Your humble servant on behalf of the boys
of H.M.S. GANGES.

Sir,

I am a widow, and at the moment a perplexed and worried parent. My son who is on H.M.S. GANGES tells me about the existing unhappy conditions among the boys there, and wants to leave. He, previous to going to GANGES was nearly 2 years on the ARETHUSA. His ability warranted, his conduct very good. Before he went to the GANGES he was quite sincere about his intentions of making his career in the Navy, but is now feeling a bit disillusioned by the feeling of discontent amongst his associates. Where one boy runs away, one regards him as a square peg in a round hole but when forty boys run away "What is one to think?"

A few weeks later the boys in my son's mess were awakened by a crashing table, after lights out, to find one of their number hanging from the beam. (This incident leaves me void of description).

These young boys are not delinquents, sent to H.M.S. GANGES for corrective training, but boys of good character and intelligence, and they should be treated as such. I know strict discipline is necessary where a collective body of youths are concerned, but is not this carrying discipline to the nonessential - when a Petty Officer makes a division of boys double back and forth through a puddle of water till they are soaked below the knees, with no means afterwards to dry their clothing, or is a drunken Petty Officer, who sways and lurches in the boys' dormitory another part of naval disciplinary training? I do not expect my letter to change the system of Naval training, but I do think the facts stated in my letter merit an enquiry. I ask you, Sir, would you as a parent, be content to leave your son appre ited to these conditions? That is why I write to you to seek advice on the matter, that concerns not only my son, but many many youths who find themselves without parental advice and sympathy thrust into the GANGES.

/I write
I write to you in all sincerity that you will know now to air this matter in the right quarters.

Thanking you,
I am,
Yours faithfully,

(Rgtd) (Mrs) Elizabeth Cooper.

Dear Ronayne,

In connection with a letter received by Commander Galbye with about boys' service in the Navy about which he may be writing to Commander Noble later on, I should be grateful if you would let me know whether it is correct that a boy joining the Navy at 15 is required to sign on for ten years.

Yours sincerely,

Sir,

After posting my letter to you I decided to visit my son on the GAMES as a further letter from him stated "his best friend had run away".

I found that the picture was not as black as painted! I was received with the utmost courtesy by the officers on watch. I was allowed to go over the establishment. In my estimation there was nothing more to be desired orceauss and training equipment such as befits a public school. The only difference, one is Educational, the other Military.

A few discreet questions revealed that the training was a toughening up process, some could take it, some could not. Also I believe the Petty Officer mentioned in my last letter may have been censured, as his conduct towards the boys in my son's division is much improved.

Sunday morning I with other visiting parents watched the boys parade on division, then inspection by the Captain. After the march past we attended morning service held in the large gymnasium. The service was Harvest Festival preceded by a fanfare, local choir-boys attending. The hymns were led by an orchestra; such a service I shall cherish for many years to come.

After church, a chat with one of the Padres convinced me that apart from the rough tough training the boys were well cared for. Then I showed both sides of the picture to my son telling him to get down to it and take everything in the spirit of the game, if he intends to become anything in the future. It's a great pity that the boy who ran away don't know the proverb "He who fights and runs away, lives to fight another day". I extend my apologies to you if I leaped before I looked and let the matter rest there. Thanking you,

Yours faithfully,

Dear Ronnie,

Thank you for your letter of 7th October about boys' conditions of service.

The position is that they join the Navy between 15 and 16½, signing on for twelve years on from the age of 15. Just before they reach the age of 18, they have the option to change their engagement to one of seven years with the Fleet plus five years on the Reserve - again from the age of 18. The statement that a boy joining with the age of 15 is required to sign on for ten years is, therefore, with some qualification, correct.

Yours sincerely,

Dear Private Secretary,

In the absence of Mr. Hott-Hedelayfe, who is abroad with a parliamentary delegation, I am enclosing a letter from one of his constituents, Mrs. Cooper of 9 Kingsmead Close, Sunninghill, Ascot, Berkshire.

As you will see from her letter, Mrs. Cooper’s son is training on H.M.S. Ganges. She is very concerned indeed at the reports she has received of the unsatisfactory conditions in this establishment.

I shall be most grateful if you will have enquiries made into the incidents to which Mrs. Cooper refers in her letter and if you can let me have a reassuring reply to send to her.

Yours sincerely,

Dear Private Secretary,

Further to my letter of yesterday, I am enclosing another letter I have had from Mr. Mott-Haddye's constituent, Mrs. Cooper.

You will see that she has had a personal visit to H.M.S. Ganges and, as a result, she has been very largely reassured.

Nevertheless you may like to have enquiries made into her statements about the number of boys who run away from this establishment, and her suggestion that the discipline is too severe.

Yours sincerely,

Dear Private Secretary,

Thank you very much for your letter of 12th October, sending me a further letter from Mr. Mott-Radclyffe and received from Mr. D. Cooper, about conditions at H.M.S. GANDER.

Commander Noble will write to Mr. Mott-Radclyffe about the two points mentioned in your last paragraph.

I am to inform you that a Parliamentary enquiry has been received about the number of boys who run away from H.M.S. GANGES. It is requested that a report may be furnished as soon as possible, showing the number of boys who have run away, in relation to the numbers born. The report should cover the present year, and if the information is readily available figures for 1953 should also be given.

Dear [Name],

Here's a letter which speaks for itself. It's probably from a useless young sighter, but on the other hand there may be something that should be looked into.

Hope I am not being a bore but I thought you should at any rate see the letter.

Dear Private Secretary,

You sent me recently two letters from Mrs. Elizabeth Cooper of 9, Kingswood Close, Sunninghill, Ascot, suggesting that we might look into the conditions at the Training Establishment, E.H.S. Canada.

We are going to do this, but it will mean keeping an eye on things over a period of time. Therefore, and as I imagine Mr. Mott-Hodgely will not be writing to Mrs. Cooper again, I am returning her letters now, with renewed thanks for bringing this matter to notice.

Yours sincerely,
