Practical Programming	3		x			
Programming Project	3			x		
Examination	2			x		

Overall Percentage: **71**   Course Grading: **C**   (RAF Equivalent: _____)

NARRATIVE:

FCRS DYKES worked hard and displayed great enthusiasm on this course. Initially he was uncertain in his grasp of Analysis Design and Program Design, but he overcame this and made good progress, especially in High Level Language programming. FCRS DYKES is suitable for further training in ADP, particularly in programming, after a suitable period of time. Overall he gained a good grasp of the course content in preparation for his appointment as assistant computer manager.

L. WING
Group Captain
Commandant

Date: **30 September 1982**
